Community Development Block Grant Public Participation Process

Want to have input on community projects in your neighborhood?

Annually, the City of Riverside receives Community Development Block Grant (CDBG) funds from the U.S. Department of Housing Urban Development (HUD).

The funding is used to address housing and community development needs of low- and moderate-income residents and families. CDBG-funded projects include neighborhood facilities construction, park improvements, street repairs, housing rehabilitation, job development and public service activities such as after-school programs, homeless services and support for seniors and the disabled.

The City invites you to attend one of the following informational meetings being held in each City Council Ward to receive an overview on current and future CDBG projects:
